Klimax System Hub

Ultimate streaming from an all-Linn system

INTERNAL USE ONLY

Those seeking the highest performance from a complete Linn system should opt for the new Klimax System Hub. The powerful pairing of Hub plus Klimax 350 speakers or Klimax Exaktbox, both with the new Organik DAC on-board, delivers a result that's out of this world.

Housed in the same exquisite new enclosure as next-generation Klimax DSM, it benefits from the improved acoustic isolation and internal damping, as well as providing visual and tactile luxury.

Our enhanced, lowest distortion ADC development, also featured in new Klimax DSM, offers improved performance from connected analogue sources.

Key points

- Exquisite enclosure protects electronics from interference in the room or product
- Precision-cut glass dial, customisable smart buttons and large high-res screen for hands-on control, restoring the joy of physical interaction lost in the digital age
- Analogue, digital and wireless connectivity for performance and convenience
 - Adds 24-bit 384khz streaming and DSD256 as supported audio formats
 - New lowest distortion ADC gets the most from connected analogue sources
 - Exakt Link for Urika II connection
 - Option to connect directly to your computer for the ultimate stand-alone DAC
 - HDMI connectivity for movie sources including eARC for Smart TV connection
 - Exakt Link provides a lossless connection to Exakt speakers or Exaktbox
